TECHNOLOGIES

Proficient: Python | Flask | SQLAlchemy | PostgreSQL | HTML | CSS | JavaScript | Git | Github

Exposure: React | Bootstrap | jQuery | Google Cloud Platform

PROJECTS *Dog Walker App* | [Github Repo](#)

Python | Flask | SQLAlchemy | PostgreSQL | HTML | CSS | Bootstrap | JavaScript | Github

- Designed and implemented a full-stack web app that allows for dog-owners to find and book with dog-walkers, and includes features such as OAuth login, pet registration, search and filtering, and Google Calendar integration. • Uses Google Calendar API to manage bookings, and Cloudinary API to store profile pictures. • Uses Flask Bcrypt to salt and hash passwords, Flask-Login for secure sign-in, and Flask Flash to display messages and give feedback to users.
- Implemented a search bar for pet owners to filter sitters at specific day/times.

Movie Rating App | [Github Repo](#)

Python | JavaScript | Flask | SQLAlchemy | PostgreSQL | CSS | Github

- Implemented a full-stack web app that lets users register accounts, find and view information on movies, as well give movies a start-rating from 0-5.
- Used SQLAlchemy for Python queries, allowing users to access all movies and users in the database. • Used Flask flash to display messages and give feedback to users.

Portfolio |

Created a front- end portfolio using React, Material UI, Semantic UI, React-Bootstrap

PROFESSIONAL EXPERIENCE

Prosecutor Assistant | MPPR | *M.C.Rondon, Parana , Brazil* **Oct 2010 - Jan 2016** *State level institution that oversees and protects minorities, collective and diffuse rights (i.e.: environment).*

- Actively supervised an average of 50 client cases a month, ensuring they meet deadlines and are processed effectively.

EDUCATION AND TRAINING *Hackbright Academy* | *Software Engineer Program - Part-Time* | *SF, CA* **Apr 2022 –**

Oct 2022 • Worked with other fellows in a fast-paced agile environment to learn fundamentals of computer science such as data structures and algorithms, in addition to modern web development.

- Pair-programmed with other fellows to work on communicating and solving problems together. • Applied fundamentals of object-oriented programming to design full-stack web applications using Python, Flask, React, JavaScript, HTML, CSS and Github version control.

Unioeste | *Bachelor of Law - General Law* | *M.C. Rondon, Brazil* **Aug 2007 - Aug 2014**

VOLUNTEER EXPERIENCE *Latinos In Tech Hackathon* | *Latinos in Tech of Washington* | *Redmond - WA* **Aug 2022**

- Worked within a team to build a website from beginning to finish using google sites.
- Designed a logo for the business Evergreen VitalHealth/ Fiesta Latina Dance.
